

# Spreading bait?

Do you know about the  
versatility of the C-Dax  
SlugMaster?

Suitable for MouseOff ZP® and  
SlugOff® baits\*

\*MouseOff ZP® and SlugOff® are registered  
Trademarks of Animal Control Technologies

## The C-Dax SlugMaster

Developed specifically for the application of pelletised and grain baits in arable cropping situations. SlugMaster will fit in with the "tram-lining" practice often used in spraying and fertilising programmes, and will spread bait up to 24 metres achieving rates down to 1 kg/ha or lower (depending on ground speed). SlugMaster is ideal for use with most slug, snail, cricket, and mouse baits, as well as woody weed control pellets.

### FEATURES

- 24 metre spread width (nominal slug pellet)
- Adjustable application rate settings
- Dual electric actuators with electric remote control operation
- Variable pre-set bias adjustment
- 75 litre non-corrosive polyethylene hopper with hinged lid

### SPECIFICATIONS

- 12 volt DC motor
- Battery cable and control cable included
- Stainless steel spinner
- Heavy-gauge powder coated steel frame
- Compatible with most rodenticides and baits
